

ULTRAMAX® 1400-CCS

One of our most versatile systems utilizing a portable impactor plant and screening plant separately or combined to produce numerous spec products.

PRIMARY FEATURES

- 1 Includes the 1400-45 OC with a side-discharge conveyor, 6x20 screening plant with an integrated feed conveyor, return conveyor with a cleated belt and three, radial-stacking conveyors.
 - » Hydraulic lift and leveling system enables quick set up and tear down by using the hydraulic run-on legs and the available run-on hydraulic legs for the screening plant.
- 2 The removable electric control panels are designed for the integrated system including pre-wired receptacles for the radial stackers.
- 3
 - » Available in-line electro-magnet on the side-discharge conveyor.
 - Includes 6x20 screening plant with integrated feed conveyor of screen.
 - » Features the industry's only LIFETIME ROTOR WARRANTY on its solid-steel, three-bar, sculptured rotor—the industry's heaviest—to keep you up and crushing.*

* North America only.

ADDITIONAL FEATURES

- » Replaces large complex crusher and screening systems for a much lower initial investment and for greatly reduced maintenance, fuel and transportation costs.
- » Designed for maximum portability with ease of operation and ease of service.
- » Produces three cubicle spec products simultaneously and returns the oversized product from the screening plant to the UltraMax® impactor plant for further reduction.
- » Features standard grizzly bypass chute and available cross-belt conveyor with flop gate to allow for either removal of the material that passes through the grizzly deck for stockpiling or blending back with the crushed material.
- » Side-discharge conveyor has receiving hopper with replaceable liners, available full-length skirtboards and optional in-line electro-magnet that stays on for trailer transport.
- » Side-discharge conveyor is available in road-portable version.
- » Manage the feeder speed for complete control of the flow of material into the impactor with Variable Frequency Drive (VFD).
- » Includes wireless remote control for the feeder shutdown and all motor stop.
